MRS. WIEMERS LOSES FINGER

Mrs. Alvin Wiemers may well be a believer of the "when it rains it pours" legend.

Just now on the road to recovery from the bite of a rattlesnake three weeks ago, Mrs. Wiemers was opening a gate last Thursday for her husband to drive through when it suddenly began closing. In an effort to hold it open, she held out her hand and her engagement ring and wedding band became caught pulling all the flesh off her third finger, left hand and a portion of her finger to the first knuckle.

The entire finger had to be removed, but Mrs. Wiemers, the former Alice Mumme, is up and about and taking the incident cheerfully.

Leinweber House Suffers Damage In Tuesday Fire

The peaceful Charles Leinweber house turned into a blazing inferno in Hondo Tuesday afternoon when the entire roof was burned.

The Leinweber house, of two-story frame construction, is located at Avenue I and 18th Street near the Hondo Ice Company. A complete estimate of the damages to the roof and that caused by water has not been set.

Matthews has been held in the Medina County jail since the boy's death. He will be tried in the 66th District, located in Del Rio, in Val Verde County.

The date of the trial has not been announced.

Sheriff Jack Fusselman and Chief Deputy Sheriff Charles Hitzfelder released Matthews into the custody of Sheriff Feris at approximately 10:45 p. m. Sunday.

Note Threatens Life Of Woman

Teenagers Vandalize Natalia Home Monday

NATALIA—Vandalism broke loose here Monday night, August 11, when M&M William E. Tucker, living in the vicinity of Calame's Store, went to San Antonio on a business trip and left their house unlocked.

Two neighbor boys found that an easy entrance was to be had and went inside, ransacked the house, and then helped themselves to the food in the icebox.

The boys found a shotgun and a rifle in a closet and proceeded to shoot the place up. A storage house near by made a good target. They shot the electric lights and shades, shot holes in three nice lawn chairs, and a window had three holes in it, the front doors were shot three times, a water barrel, used for hauling domestic water, had two holes in it, tractor's gas tank was nearly hit, shot the rain gauge, fired three times at the tractor plow, threw a hatchet through another window, cut off a post under a shed, and then decided they had enough fun.

Chief Deputy Sheriff Charles Hitzfelder and Deputy John Kempf, Medina County officers, were called on the job, and following a lead, they questioned two neighbor boys, ages 10 and 11. They admitted that they did the damage.

According to the investigating officers, this should be taken as a serious warning. "It always pays

to lock your doors when you leave home. These boys were tempted by an easy entrance whereas, if the doors had been locked, it might not have happened," they stated.

The two vandals were brought to the Medina County Court House, Wednesday, August 13, where they had a talk with County Judge Hugh Meyer, who advised the boys of the seriousness of the incident.

Chacon Lake Water Level Is Dropping

NATALIA—The water level in Chacon Lake has fallen so low that the upper part of the lake is standing in holes and the fish are dying.

Game Warden August Timmerman has ordered that the holes be seined and the fish moved into several other small lakes. Some are to be taken to a lake at Pearson and others to the Humble Pipe Line Company lakes, two miles north of Natalia.

The well which was recently drilled on the banks of the Chacon is reasonably strong and will probably produce enough water to maintain the present level in the lake proper. But the Water District directors have not been able to obtain a pump because dealers said it would be at least two more weeks before a pump could be obtained.

Meanwhile, Wayland Day, member of the board of directors of the Medina, Atascosa, Bexar Counties Water District, announced that something must be done at once or the fish will all die.

HD CLUB WOMEN TO RECEIVE CHEST X-RAYS

KINGSVILLE—Almost a thousand women of rural communities meeting in Kingsville August 26-28 will be given chest x-rays as a feature of the annual Texas Home Demonstration Association convention.

The survey is part of the TB associations' program of finding and controlling tuberculosis in Texas which is financed by the annual sale of Christmas Seals bearing the anti-TB emblem—the double barred cross.

More than 900 women, representing 43,000 club members in Texas, have registered to date for the convention.

Rooms are available to the delegates in the college dormitories and meals in the cafeteria, the THDA president announced.

Mrs. Schweers Is Threatened With Death Note

At exactly 9:30 p. m. Sunday, August 10, an unidentified person walked up to the door of the Alfred Schweers' residence, Avenue M at 29th Street, and calmly threw a note into the house.

The note, with a knife stuck through it, threatened Mrs. Schweers with death.

Scribbled carelessly on a white piece of paper was the following: "Beware, you are to die tonight at 1:00 o'clock. Signed, Anonissie." The person who wrote the note intended that the death sentence be signed "anonymous", meaning without name.

Although Mrs. Schweers has not been harmed since the incident, Chief Deputy Sheriff Charles Hitzfelder reports that an investigation is underway and that he believes the case will be solved in a number of days.

D'HANIS LOSES TO LACOSTE IN 10th INNING

The LaCoste Athletics edged the D'Hanis Pirates 3-2 as they scored the winning run with one out in the bottom of the tenth frame of a hard fought game at LaCoste last Sunday afternoon. The victory kept the Athletics tied up with the Hondo Oilers for the league's first place berth and also gave the Castroville Indians who tumbled the Rio Medina Tigers 6-2 the opportunity to catch the D'Hanis Pirates, and thus necessitate the playoff of two ties next Sunday afternoon.

At LaCoste, Clinton Bippert of the Athletics and Zinsmeyer of the Pirates locked up in a whale of a pitcher's duel in which Bippert who twirled a masterful six hitter finally emerged the winner. He was faced with several rough situations, but was always able to work out then when he needed to the worst. The Pirates scored their two runs with single scores in the 1st and 7th frames. In the first inning a double error on the grounder of R. Rothe committed by F. Keller and Ehlinger placed the D'Hanis speedster on second from where he scored on two infield ground balls. In the seventh H. Huser doubled to left center and later scored when Franger threw wild to first on an attempt for a twin killing.

LaCoste pushed over the winning score in the tenth when L. Keller led off with a two-bagger, Franger walked, E. Keller sacrificed and F. Keller singled. F. Keller and Franger teamed up to knot the count at 2-2 in the 8th with Franger singling and scoring on Keller's triple to deep centerfield. The opening LaCoste score was made by Clinton Bippert in the third when he walked, advanced to second on Ehlinger's sacrifice and scored on L. Keller's single.

Langfeld led D'Hanis batters, collecting half of the Pirates hits, a double and two singles for five trips. Franger's two singles for three trips was the top LaCoste performance. L. Keller of the Athletics collected a single and a double for four, while F. Keller tripled and singled in five trips. Vernor Bippert collected a double for the Athletics.

Castroville Defeats Rio Medina

Harold Keller twirled 3-hit ball at Rio Medina last Sunday afternoon as the Indians tumbled the Rio Medina Tigers 6-2. Keller allowed the Tigers a score in the first frame and again in the seventh and otherwise blanked them all the way as only Gerald Haby and Tom Jungman were able to hit his offerings. Jungman collected two of the three Rio Medina hits in his four appearances, while Haby collected one for four.

Castroville collected twelve hits off the offerings of Melvin Jagge, with Tom Hoog, Hans, Sterl and Stan Jagge sharing the honors with two hits apiece. Kempf, Tom Hoog and H. Keller supplied the Castroville power with a double apiece. RAY JENNINGS PLANS BIG HUNT

Ray Jennings is leaving Hondo Friday, August 15, on a bear hunting trip with R. M. McCandless, Harold Legge and Wilfred Gustafson all of Austin. They plan to leave from Great Falls, Montana, and go into British Columbia, and will hunt around Dawson Creek.

Two cars will go as far as Hythe, Alberta, Canada, and then one car will go to Dawson, from where they will travel five days more on horseback.

The party will look for bear, moose, elk, caribou, mountain sheep and mountain goats. Ray says he is looking for a bear, while McCandless is aiming for goat.

There will be fishing on Sundays, and the trip is set up for six weeks.

Four Teams Play For First And Third Berths

The regular Highway 90 League baseball season was extended one week Monday night by league officials following the outcome of Sunday afternoon's league games which left Hondo and LaCoste tied for the loop's number one berth, and Castroville and D'Hanis tied for third place. Hondo's 12-2 victory over Quihi, LaCoste's 3-2 win over D'Hanis and Castroville's 6-2 win at Rio Medina muddled up the first four such as they are. However, these clubs have been running nip and tuck now for several weeks and speculation led strong toward the possibility of these ties.

Directors of the four involved clubs, Hondo, LaCoste, D'Hanis and Castroville met Monday night at Hondo with league officials and decided on a one game sudden death playoff to decide the positions of the involved clubs. At the flip of a coin the decision was to break the LaCoste-Hondo tie in a game at Hondo Sunday afternoon, August 17th, and the Castroville-D'Hanis tie in a contest at Castroville the same afternoon. Hondo and LaCoste records are 14 victories, 2 losses; Castroville and D'Hanis, 10 victories, 6 losses.

Outcome of Sunday's game will pit the first and fourth place clubs and the second and third place clubs against each other when the league's Shamesey play-offs commence Sunday, August 24th.

Hondo in regular season play has turned the tables on LaCoste twice—in the season opener 5-3, and at Hondo, opening the second round of play, 8-7 in a thrilling 11 inning contest. Hondo was beaten twice by the Rio Medina Tigers.

The Castroville-D'Hanis conflicts show a victory apiece—Castroville copped the opener from the Pirates 13-4, and the Pirates turned the tables on the Indians 8-7 in their last meeting. With county-wide interest mounting in these two conflicts, and since the entire county is well represented in the presence of the four involved clubs, early indications look for huge crowds of loyal fans following their favorites in each of these two top flight games.

SANITATION MEASURE

Now it is up to the people of the City of Hondo. The City Council has completed plans for a city-wide garbage pickup to begin September 1. The citizens should now try to cooperate as much as possible so as to enable the project to fully function. The City has been very fortunate in regard to keeping a clean community—free from diseases—and everyone should be proud of this fact. But, if those will follow the requests asked by the officials, one may be doubly assured that Hondo will be classed as one of the cleanest townships in the state or even on a national basis. All that is asked of a person is to pay a monthly fee, which does not amount to much, and that the required size refuse can be used.

YOUR VOTE

Only a little more than half of the people in the United States who can vote exercise that privilege. One might say that as a nation we are only a little more than half interested in our future and our well-being. A 100 per cent vote would make sure that the man elected would be the man most of the nation's qualified voters want. Start investigating into the background of each candidate now. Is he qualified to serve in a public office—local, state or national? How much experience has he to serve the people? Ask these questions and be ready for the General Election in November. Don't delay.

FREE ENTERPRISE

There are some 11,000 country daily and weekly newspapers in the 48 states. Most of them are individually owned and express the personal opinions of their editors on local and national affairs. The country press is an outstanding example of private initiative and enterprise. It has had to fight political moves which seek to limit its independence. It understands the menace of growing centralized government, socialism and communism, all of which mean bureaucratic control of the individual and confiscatory taxation. It is almost unanimously opposed to government in business because that leads to the destruction of free enterprise and individual opportunity. In fighting political oppressions the press is the champion of every worker and industry seeking to serve the public and earn a profit. Businessmen should realize as never before that without a fair discussion of their problems by local editors, their enterprises would be easy prey for politicians who seek by legislation and taxation to control the activities and earnings of every citizen.

Industrial Review

SAFETY FIRST

Medina County citizens can point with pride to their safety first record on highways. For the first six months of 1951 the record for traffic fatalities was twelve. For the first six months of 1952 the number is only three. These figures are based on a survey made of counties in the 5th District of the P. T. A., of which Mrs. W. H. Abshire, San Antonio, is Safety Chairman.

RETURN ALIVE

With the peak of the travel season at hand, this is the proper time to remind readers that vacations are enjoyed most when the vacationers return home alive. Each year thousands of Americans start out enthusiastically on summer vacations and never return home, having become the victims of their own carelessness or some other driver's carelessness on the highway. This is one of the great tragedies on the American scene and the death toll resulting must somehow be cut down. The annual death rate on the highways exceeds the rate in Korea. Haste, carelessness, and defective automobiles cause most highway tragedies. If you will practice patience and courtesy on the highway, carefulness, and be sure your car is mechanically sound, chances are you will return from this year's vacation sound and refreshed.

Through The Neighbor's Keyhole

OLD
If you can remember when the grocer used to give you a dime's worth of candy when you paid your bill, and always plugged the coal oil spout with a potato, you're undoubtedly a whole lot older than you'd like to be.

LOGICAL REVISION
Now that you're out of school, wonder what you think of a new idea that's getting national attention. The idea is to run schools all year instead of nine months. John W. Studebaker, former federal commissioner of education, is one of the sponsors of the idea, which would have three-fourths of the students in school at one time, with vacations rotating. He points out that such a scheme would require only three-fourths as many classrooms as the present system—and there's a tremendous shortage of school classrooms and buildings.

STILL ROOM
There are greater opportunities in business and industry every day, because there are fewer and fewer people who are interested in "getting to the top." Many are interested only in short hours, high pay, long vacations and a liberal pension plan with as lit-

tle responsibility as possible.

With most workmen and employees governed by such an inferiority complex, there will be plenty of good positions open in a few years for the ambitious lad who is willing to put in an extra hour, or learn a little more about the business—without concerning himself about immediate returns.

There has always been room at the top—and it is sure to grow as long as the majority of workmen are interested only in immediate returns.

FIRST COTTON
NEW YORK—The first bale of the 1952 cotton crop has been purchased by the Cramerton Division of Burlington Mills, it was announced recently.

The first 1952 bale brought a whopping \$2.78 per pound for cotton grower Ray Barnick of Mission, Texas, when auctioned at the Houston Cotton Exchange in June. Anderson Clayton & Company, raw cotton merchants, bought the bale and resold it to Cramerton. Members of the Exchange added an additional bonus of \$1350, making Mr. Barnick's total return \$2684.

The afore mentioned material was taken from the GRASS ROOTS DIGEST.

THE SECO PHILOSOPHER

THE SECO PHILOSOPHER LOOKS FOR FLYING SAUCERS BUT HAS HIS SKY-GAZING BADLY INTERRUPTED

Dear editor:
I was out here the other night lookin' for flyin' saucers, there's one thing I've noticed about the things, there are more of em in the summer time when it's convenient to be outside sittin' in your yard lookin' skyward, I guess for the same reason there are more sick people in hospitals than hotels. Also more people see em over Washington than anywhere else, on account of a guilt complex, I suppose.

I've been lookin' for some time but hadn't seen anything worth more than a paragraph or two in a newspaper when my wife spoke up and said she wanted the front gate fixed, along with the leakin' sink, the hole in the roof, the floor on the back porch, the wall paper in the livin' room, the steps to the front porch, the screen door to the kitchen, the window panes on the north side of the house, the stuck doo in the hall, and a few other of words like the tail streak of a comet.

I do not like to have my scientific studies interrupted by such mat-

ters, but I took my eyes off the sky, left the saucers to the Associated Press, and explained to her it is not sound business to undertake any modernization, improvement or financial venture until after the election.

Naturally things are in a state of flux and uncertainty, awaitin' the outcome of the election in November, and it don't behoove nobody to take any important steps until the economic roads for the next four years are well defined. Big business follows this pattern frequently. Personally, I do not intend to fix my saggin' gate after the election either, or the sink or the back porch or the roof or anything else anybody can think of, but if you can't use an election to postpone naggin' on the topic, you ain't usin' your head.

If you want to know what I think of flyin' saucers, they're as real as political promises and about as hard to put your finger on after they flash by.

Yours faithfully,
J. A.

FREEDOM'S CASE AGAINST DEAN ACHESON

INSTALLMENT IV

(Continued From Last Week)

In June, 1947, over Congressional opposition, Acheson insisted that the United States deliver \$17,000,000 worth of postwar lend-lease supplies to Russia. Since, under the Truman Doctrine, we had already begun fighting Soviet Aggression in Greece, Congressmen asked why we should continue sending lend-lease to our enemies. Acheson forced delivery of the supplies.

This period saw the genesis of the Marshall Plan, and Acheson apologists like to point his support of this plan as evidence of his anti-Sovietism. What must be remembered is this: the plan as originally worked out by Acheson included aid for Russia and the East European satellites as well as for the nations of Western Europe!

During the first weeks that the Marshall Plan was under discussion, it seemed that the Communist Party policy would be to endorse the plan. But when the Benes government in Prague accepted the proposed aid, Moscow decided that the plan was a Wall Street plot and a device for "safeguarding Western Europe from Communism." Benes was forced to reject Marshall Plan aid.

IN THE SUMMER OF 1948, Acheson's old confederate, Lauchlin Currie, came before the House Un-American Activities Committee. He was accompanied by counsel, one Dean Acheson, temporarily "out" of the government. Both Whittaker Chambers and Elizabeth Bentley, under oath, identified Currie as a Soviet agent. Currie, closely counseled by Acheson, admitted only that he used his considerable influence to save the government job of Nathan Gregory Silvermaster, who was identified under oath as a member of a Soviet spy ring in Washington.

On December 16, 1948, Acheson's intimate friend, Alger Hiss, was indicted for perjury in denying under oath that he had handed secret government documents to the a-

gents of a foreign power. Acheson had done a lot for Hiss. He had secured him the appointment of Executive Secretary of the Dumbarton Oaks Conference in 1944; sent him to Yalta in 1945 as adviser to President Roosevelt; pushed him to high distinction as Secretary General of the United Nations Conference on International Organization in San Francisco. When in January, 1950, Hiss was convicted, Acheson, Secretary of State of the nation the perjurer had betrayed, announced: "I will not turn my back on Alger Hiss."

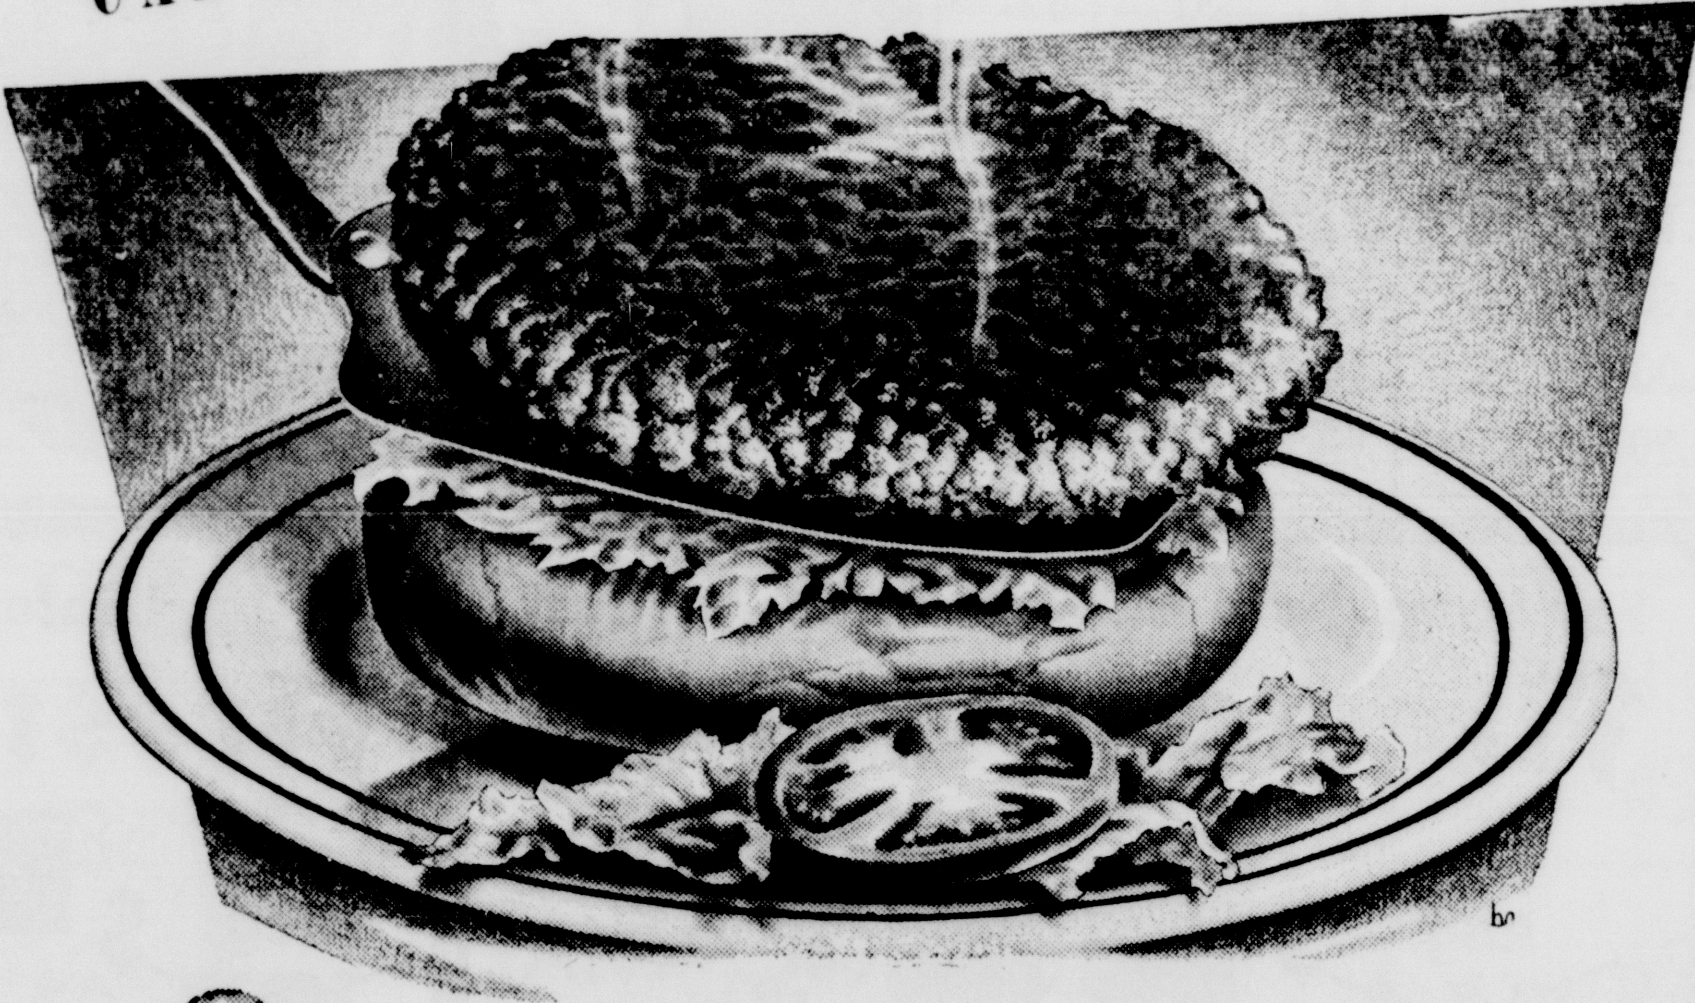

In January, 1949, when Acheson became Secretary of State, some of the chickens had started coming home to roost. So Acheson quickly brought forward Professor Philip C. Jessup as his first lieutenant, and set Doctor Jessup to preparing the "Whitewash Paper" on China. Jessup's affiliations with the Communist fronts are a matter of record. He signed the atom bomb letter in the New York Times, February 16, 1946, which urged us to quit making atomic bombs and leave the disposal of our stockpile to the United Nations. He had been active in the Institute of Pacific Relations with Owen Lattimore and Frederick Vanderbilt Field; he was a member of the committee which had appointed Alger Hiss head of the Carnegie Endowment; and he appeared in court as a witness for Hiss.

The White Paper on China, issued August 5, 1949, could be called an outright fraud, or it can be left to the judgment of the New York Times, often an Acheson apologist.

This inquest on China is not the work of a serene and detached coroner but of a vitally interested party in the catastrophe. Unfortunately, at this point one of these vital interests is self-justification, which certainly is the enemy of objective analysis.

In 1948 we had begun withdrawing our army from South Korea, (See DAVIS, Page 8A)

CAN YOU GUESS THE COOKING COST?

It's less than you think . . . when you use natural gas. In fact . . . when you consider all of the big jobs that natural gas does in the home . . . we think you'll agree it's worth much more than it costs.

The cost of hamburger meat, like just about everything else, has increased many times over since 1940. Remember, for example, when a pound of hamburger meat cost 15 cents? When a hamburger cost a nickel . . . 10 cents for the big super special?

But the cost of cooking your hamburger today is about the same as it was 20 to 30 years ago. Less than a penny's worth of natural gas here in the Gulf South will cook enough hamburgers for the whole family.

Yes, natural gas is worth much more than it costs today!

THE CHAPLAIN'S CORNER

By Chaplain (Captain) Wade K.
Tomme, Hondo Air Base
"WHAT IS YOUR REACTION?"

The important thing about life is not what happens to us but rather how we react to what happens. True enough, none of us will look for misfortune, but on the other hand we ought to be realistic enough to realize that when it comes we shall either be strengthened or beaten by adversity. Our attitude toward unfortunate circumstances determines what they shall do to us.

Booth Tarkington had believed in his younger days that he could endure any misfortune except blindness. When he finally lost his eyesight, at the age of sixty, Tarkington said, "I found I could take the loss of my eyesight, just as a man can take anything else. If I lost all five of my senses,

FORMER HONDO CITIZEN PRAISED FOR ATTENDANCE AT ROTARY CLUB MEETS

According to a report made this week by officials of the Corpus Christi Rotary Club, George Gilliam, formerly of Hondo, has attended every meeting of the Club for 23 years without a miss.

Gilliam's record far exceeded his nearest competitor who had only 12 consecutive years.

The report stated 24 members, who have not missed a meeting at least one year, are in the club and these 24 have attended a total of 117 years without missing a meeting.

I know I could live on inside my mind. For it is in the mind we see, and live."

We may learn to adjust ourselves to the inevitable and become stronger persons thereby or we allow the circumstances of life to break us. The choice is ours.

MRS. SCHWEERS RETURNS HAPPY

BY MRS. J. D. SCHWEERS I left Hondo by train for Astoria, Ore., to spend time with my son, James, family, including little Laurie, my first grandchild, was born June 19. I traveled thru New Mexico, and California where a lot of beautiful scenery, snow-covered mountains, the sunset across the rivers. Snow was even in the Cascade Summit area. Arrived at Portland, Ore. ly 25, where I was met by Joe and Joe who took me home more by car. After being there four no sun, I asked "doesn't ever shine here?" But I a lot of weather in the pleasantly spent time. The city of Astoria is along the Columbia River. Saw Longview, Wash., one evening at Seaside, Ore. nice resort city. Went to great aquarium and saw fish and deep sea animals. Attended church at "The Church of the Sea," a beautiful church. Saw monument. No one ever goes hungry as Shirley is noted for and pies, Lerry for Grandma V. for her fry, and by no means was the chocolate cake of the dishes. But radio reception is poor there. After having say, "Mom the weather is clear, no good radio now," that was something to this Texan on my way. Spent a day and night then on by train to Steamboat, Colorado, New Mexico back into good old Texas. This will be remembered years. Astoria, is O.K. but give me Texas back.

Shown above is about a third of the eighty people who attended a meeting recently at the LaCoste VFW Hall to decide what to do about the situation of the Medina River water level.

It was agreed that a permanent group be organized to see that the Medina River be kept flowing. The Medina Valley Property Owners Association was formed and they immediately filed a law suit for \$250,000 damages against the directors of the Medina-

Atascosa-Bexar Counties Water District. The hearing was set for the morning of August 14, in the 37th Judicial District Court Room, Court House, San Antonio.

A decision is pending, but the Association is demanding that the Water District turn out enough water to wash out all holes from the Medina Lake to the Mann Crossing at the Frio City Road near Macdona. They also desire that a natural flow be maintained afterwards.

PUBLICITY PLUGS GIVEN TO CITY OF CASTROVILLE

CASTROVILLE—A calendar printed in Dallas and featuring Texas vacation spots has a full page photograph of one of Castroville's century old houses. As thousands of the copies are sold the advertising is a boost for Castroville.

Castroville will also gain some publicity at the State Teachers College at Huntsville as a course entitled "Touring Texas" will include information about Castroville.

thought it was known that for years the Soviet training schools in Siberia had been training and arming the North Koreans. The Korean National Assembly, on November 20, 1948, begged that we remain.

A secret memorandum to the State Department from Lattimore proposed that Korea should be allowed, as he subsequently stated more succinctly in the fellow traveling Daily Compass, "to fall without making it look as if the United States had pushed it." Acheson announced that no policy decisions could be made until "after the dust has settled."

In the Spring of 1949 the State Department recommended that economic aid only, to the extent of \$150 million, be extended to South Korea. Congress demanded that military aid be included; the provision for military aid was included; but no military aid was shipped.

On December 23, 1949, Acheson instructed all diplomatic and consular personnel that Formosa had no strategic value. But in May, 1951, under oath, Acheson stressed Formosa's "strategic importance." On January 5, 1950, the British extended recognition to Red China with the full knowledge and approval of our State Department. (Statement by Beverly Baxter, Member of Parliament.) On this same day President Truman declared: "The United States government will not provide military aid or advice to Chinese forces on Formosa."

On January 12, 1950, in a speech to the National Press Club in Washington, Acheson discussed our defensive policy for Asia. "Our defensive perimeter," he said, "runs along the Aleutians to Japan and then goes to the Ryukyus." This policy abandoned Asia to the Communists and invited them to seize both South Korea and Formosa, since these areas lay outside the announced perimeter. In this same speech Acheson jeered at Senator Robert A. Taft's proposal that we send a fleet to protect Formosa against Red invasion. He said he didn't realize that Mr. Taft was a military expert.

On June 10, 1950, speaking in St. Louis, Truman said: "We are closer to world peace now than at any time in the last three years."

On June 25, 1950, the Communists invaded South Korea, and three days later American troops began

On June 27, 1951, Acheson stated we would be satisfied if the Communists withdrew behind the 38th Parallel. On August 2, 1951, he declared that the 38th Parallel "as a line of demarcation" was "unacceptable."

On September 13, 1951, President Truman said that Dean Acheson will be Secretary of State "as long as I am President of the United States."

THAT'S THE RECORD of Dean Gooderham Acheson as a fighter for freedom. Only one additional entry need be made.

On March 5, 1952, Acheson scolded Washington reporters for inquiring why he had single-handedly "cleared" Oliver Edmund Clubb, whom the State Department's own board had judged a security risk. "In the future," he announced, "I hope you will understand that always the responsibility for these decisions must rest with me."

During the period of Acheson's stewardship at the State Department, more than six hundred million human beings have been dragged into Soviet slavery. Soviet power has mushroomed until it now threatens the existence of freedom everywhere on earth. It therefore seems fair to ask this question: have the actions and at-

itudes of Dean Acheson aided the cause of freedom in its struggle against Soviet slavery, or have they impeded it?

On November 4, 1952, the American people will have the opportunity to answer this question.

BUICK'S POWER STEERING?

It's the big NEWS of the year

THERE is a host of things that endear a ROADMASTER to anyone who loves to drive.

There's the might of its Fireball 8 Engine — most powerful ever put in a Buick.

There's the thrift of its Airpower carburetor — a four-barrel automatic that literally brings increased power right out of thin air.

There's its hushed and luxurious silence — its poised and level ride that cost a million dollars to develop — and the infinite smoothness of its Dynaflo Drive.

But the thing that has brought the most cheers for this big and obedient beauty is Buick's version of Power Steering.*

Gone is the tug of turning, parking, maneuvering in small space.

Power Steering takes over the effort of turning the front wheels — makes it a one-hand operation.

Do you have to learn to drive all over again if you have this new Buick feature?

You definitely do not. On the open road, you have that same sure sense of command that you've always had. Coming out of a curve, you can loosen your grip, and the front wheels right themselves just as they do on every Buick.

But you'll notice this: When you suddenly hit loose dirt or sand — or a stretch of rough road — Power Steering smoothly goes into action — helps take up the jerk — makes control of the wheel easier and driving safer.

Wouldn't you like to try out this newest wonder — on a ROADMASTER or a SUPER? You say the word, and we'll do the rest.

Equipment, accessories, trim and models are subject to change without notice. *Optional at extra cost on Roadmaster and Super only.
